## Independent Auditor's Report

Board of Directors  
Aromas Water District  
Aromas, California

### Report on the Financial Statements

We have audited the accompanying financial statements of the Aromas Water District (District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditor's Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Opinion*

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Aromas Water District, as of June 30, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Independent Auditor's Report, continued**

### ***Emphasis of Matter***

As discussed in Note 6 to the financial statements, the District restated net position as of June 30, 2016, for accrued interest on long-term debt that was not recorded. Our opinion is not modified with respect to this matter.

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 6, and required supplementary information on pages 34 and 35, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Supplementary Information in Relation to the Financial Statements as a Whole***

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of operating expenses is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

#### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated February 27, 2018, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance. This report can be found on pages 37 and 38.

**Aromas Water District**  
**Management's Discussion and Analysis**  
**For the Fiscal Year Ended June 30, 2017**

The following Management's Discussion and Analysis (MD&A) of activities and financial performance of the Aromas Water District (District) provides an introduction to the financial statements of the District for the fiscal year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with the basic financial statements and related notes, which follow this section.

**Financial Highlights**

- In fiscal year 2017, the District's net position decreased 3.43% or \$241,675 to \$6,802,181.

**Required Financial Statements**

This annual report consists of a series of financial statements. The Statement of Net Position, Statement of Revenues, Expenses and Changes in Net Position, and Statement of Cash Flows provide information about the activities and performance of the District using accounting methods similar to those used by private sector companies.

The Statement of Net Position includes all of the District's investments in resources (assets), deferred outflows of resources, the obligations to creditors (liabilities), and deferred inflows of resources. It also provides the basis for computing a rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District. All of the year's revenue and expenses are accounted for in the Statement of Revenues, Expenses and Changes in Net Position. This statement measures the success of the District's operations over the past year and can be used to determine if the District has successfully recovered all of its costs through its rates and other charges. This statement can also be used to evaluate profitability and credit worthiness. The final required financial statements is the Statement of Cash Flows, which provides information about the District's cash receipts and cash payments during the reporting period. The Statement of Cash Flows reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, non-capital financing, and capital and related financing activities, as well as providing answers to such questions as where did cash come from, what was cash used for, and what was the change in cash balance during the reporting period.

**Financial Analysis of the District**

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of this year's activities?" The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position report information about the District in a way that helps answer this question. These statements include all assets, deferred outflows, liabilities, and deferred inflows using the *accrual basis of accounting*, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

These two statements report the District's *net position* and changes in them. One can think of the District's net position (the difference between assets and deferred outflows, and liabilities and deferred inflows), as one way to measure the District's financial health, or *financial position*. Over time, *increases or decreases* in the District's net position is one indicator of whether its *financial health* is improving or deteriorating. However, one will need to consider other non-financial factors such as changes in economic conditions, population growth, zoning, and new or changed government legislation, such as changes in Federal and State water quality standards.

**Aromas Water District**  
**Management's Discussion and Analysis, continued**  
**For the Fiscal Year Ended June 30, 2017**

**Notes to the Basic Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to the basic financial statements can be found on pages 12 through 33.

**Statement of Net Position**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources of the District exceeded liabilities and deferred inflows of resources by \$6,802,181 as of June 30, 2017.

A portion of the District's net position reflects the District's investment in capital assets (net of accumulated depreciation) less any related debt used to acquire those assets that is still outstanding (43.48% as of June 30, 2017). The District uses these capital assets to provide services to customers within the District's service area; consequently, these assets are *not* available for future spending. (See Note 7 for further discussion)

At the end of fiscal year 2017, the District showed a positive balance in its unrestricted net position of \$629,266.

**Condensed Statement of Net Position**

	<b>2017</b>
<b>Assets:</b>	
Current assets	\$ 4,330,857
Capital assets, net	7,468,147
<b>Total assets</b>	<b>11,799,004</b>

**Statement of Revenues, Expenses and Changes in Net Position**

**Condensed Statement of Revenues, Expenses, and  
Changes in Net Position**

	<b>2017</b>
<b>Revenue:</b>	
Operating revenues	\$ 954,024
Non-operating revenues	227,349
<b>Total revenue</b>	<b>1,181,373</b>
<b>Expense:</b>	
Operating expense	766,868
Depreciation expense	451,158
Non-operating expense	205,022
<b>Total expense</b>	<b>1,423,048</b>
<b>Change in net position</b>	<b>(241,675)</b>
<b>Net position – beginning of period, as restated</b>	<b>7,043,856</b>
<b>Net position – end of period</b>	<b>\$ 6,802,181</b>

The statement of revenues, expenses and changes in net position shows how the District's net position changed during the fiscal year. In the case of the District, net position decreased by \$241,675 for the fiscal year ended June 30, 2017.

**Aromas Water District**  
**Management's Discussion and Analysis, continued**  
**For the Fiscal Year Ended June 30, 2017**

**Capital Asset Administration**

At the end of fiscal year 2017, the District's investment in capital assets amounted to \$7,468,147 (net of accumulated depreciation). This investment in capital assets includes land, water transmission and distribution systems, buildings and structures, equipment, and vehicles. Major capital asset additions during the year include improvements to the water transmission and distribution system.

Changes in capital assets for 2017, were as follows:

	<u>Balance 2016</u>	<u>Transfers/ Additions</u>	<u>Transfers/ Deletions</u>	<u>Balance 2017</u>
Non-depreciable assets	\$ 331,196	-	-	331,196
Depreciable assets	12,066,737	99,075	-	12,165,812
Accumulated depreciation	(4,577,703)	(451,158)	-	(5,028,861)
Total capital assets, net	\$ <u>7,820,230</u>			<u>7,468,147</u>

**Debt Administration**

Changes in long-term debt in 2017, were as follows:

	<u>Balance 2016</u>	<u>Additions</u>	<u>Principal Payments</u>	<u>Balance 2017</u>
Bonds payable	\$ 3,268,613	-	(75,613)	3,193,000
Notes payable	1,423,228	-	(105,477)	1,317,751
Total long-term debt	\$ <u>4,691,841</u>	<u>-</u>	<u>(181,090)</u>	<u>4,510,751</u>

**Conditions Affecting Current Financial Position**

Management is unaware of any conditions which could have a significant impact on the District's current financial position, net position or operating results in terms of past, present, and future.

**Requests for Information**

This financial report is designed to provide the District's funding sources, customers, stakeholders and other interested parties with an overview of the District's financial operations and financial condition. Should the reader have questions regarding the information included in this report or wish to request additional financial information, please contact the District's General Manager at 388 Blohm Avenue, Aromas, California 95004.

See accompanying notes to the basic financial statements

**Aromas Water District**  
**Notes to the Financial Statements**  
**For the Fiscal Year Ended June 30, 2017**

**(1) Reporting Entity and Summary of Significant Accounting Policies**

**A. Organization and Operations of the Reporting Entity**

The Aromas Water District (District) was formed on July 24, 1959, pursuant to the provisions of the California Water Code, Division 12, and Section 30321 thereof. The District takes water from several deep-water wells located in Aromas to serve 953 connections within its jurisdiction. The District is dedicated to providing a reliable supply of high quality water. The District is governed by a five-member Board of Directors who serves overlapping four-year terms.

The criteria used in determining the scope of the financial reporting entity is based on the provisions of Governmental Accounting Statement No. 61, *The Financial Reporting Entity*. The District is the primary governmental unit based on the foundation of a separately elected governing board that is elected by the citizens in a general popular election. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The District is financially accountable if it appoints a voting majority of the organization's governing body and: 1) It is able to impose its will on that organization, or 2) There is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.

**B. Basis of Accounting and Measurement Focus**

The District reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the District is that the costs of providing water to its service area on a continuing basis be financed or recovered primarily through user charges (water sales), capital grants and similar funding. Revenues and expenses are recognized on the full accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period incurred, regardless of when the related cash flows take place.

Operating revenues and expenses, such as water sales and water purchases, result from exchange transactions associated with the principal activity of the District. Exchange transactions are those in which each party receives and gives up essentially equal values. Management, administration, and depreciation expenses are also considered operating expenses. Other revenues and expenses not included in the above categories are reported as non-operating revenues and expenses.

**C. Financial Reporting**

The District's basic financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), as applied to enterprise funds. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District solely operates as a special-purpose government which means it is only engaged in business-type activities; accordingly, activities are reported in the District's proprietary fund.

The District has adopted the following GASB pronouncements in the current year:

In June 2015, the GASB issued Statement No. 74 – *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. The objective of this Statement is to improve the usefulness or information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability.

**Aromas Water District**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Year Ended June 30, 2017**

**(1) Reporting Entity and Summary of Significant Accounting Policies, continued**

**C. Financial Reporting, continued**

This Statement replaces Statements No. 43 – *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, as amended, and No. 57 – *OPEB Measurements by Agent Employers and Multiple-Employer Plans*. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25 – *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, as amended, Statement 43, and Statement No.50 – *Pension Disclosures*.

In August 2015, the GASB issued Statement No. 77 – *Tax Abatement Disclosures*. The objective of this Statement is to improve financial reporting by giving users of financial statements essential information that is not consistently or comprehensively reported to the public at present. Financial statement users need information about certain limitations on a government’s ability to raise resources. This includes limitations on revenue-raising capacity resulting from governmental programs that use tax abatements to induce behavior by individuals and entities that is beneficial to the government or its citizens. Tax abatements are widely used by state and local governments, particularly to encourage economic development.

In December 2015, the GASB issued Statement No. 78 – *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this Statement is to address a practice issue regarding the scope and applicability of Statement No. 68 – *Accounting and Financial Reporting for Pensions*. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. This Statement amends the scope and applicability of Statement 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that meet certain criteria.

In January 2016, the GASB issued Statement No. 80 – *Blending Requirements for Certain Component Units – An Amendment of GASB Statement No. 14*. The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member.

In March 2016, the GASB issued Statement No. 82 – *Pension Issues – An Amendment of GASB Statements No. 67, No. 68, and No. 73*. This Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

**D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position**

**1. Use of Estimates**

The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources; and disclosures of contingent assets, deferred outflows of resources, liabilities, and deferred inflows of resources at the date of the financial statements and the reported changes in net position during the reporting period. Actual results could differ from those estimates.

**Aromas Water District**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Year Ended June 30, 2017**

**(1) Reporting Entity and Summary of Significant Accounting Policies, continued**

**D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position, continued**

**2. Cash and Cash Equivalents**

Substantially all of the District's cash is invested in interest bearing accounts. The District considers all highly liquid investments with a maturity of three months or less at the time of purchase to be cash equivalents.

**3. Investments**

Changes in fair value that occur during a fiscal year are recognized as investment income reported for that fiscal year. Investment income includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

**4. Fair Value Measurement and Application**

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on valuation inputs used to measure the fair value of the asset, as follows:

Level 1 – Valuations based on quoted prices in active markets for identical assets.

Level 2 – Valuation based on directly observable and indirectly observable inputs. These inputs are derived principally from or corroborated by observable market data through correlation or market-corroborated inputs. The concept of market-corroborated inputs incorporates observable market data such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 – Valuation based on unobservable inputs where assumptions are made based on factors such as prepayment rates, probability of defaults, loss severity and other assumptions that are internally generated and cannot be observed in the market.

**5. Accounts Receivable and Allowance for Uncollectible Accounts**

The District extends credit to customers in the normal course of operations. When management deems customer accounts uncollectible, the District uses the allowance method for the reservation and write-off of those accounts.

**6. Property Taxes and Assessments**

The County of Monterey and the County of San Benito Assessor's Offices assess all real and personal property within the Counties each year. The County of Monterey and the County of San Benito Tax Collector's Offices bill and collect the District's share of property taxes and assessments. In 1993, the Counties adopted the alternative method of secured property tax apportionment available under Chapter 3, Part 8, Division 1 (commencing section 4701) of the Revenue and Taxation Code of the State (also known as the "Teeter Plan"). This alternative method provides for funding each taxing entity included in the Teeter Plan with its total secured property taxes during the year the taxes are levied, including any amount uncollected at fiscal year-end. Under this plan, the Counties assume an obligation under a debenture or similar demand obligation to advance funds to cover expected delinquencies, and by such financing, Aromas Water District receives the full amount of secured property taxes levied each year and, therefore, no longer experiences delinquent taxes. Property tax in California is levied in accordance with Article 13A of the State Constitution at one percent (1%) of countywide assessed valuations.

**Notes to the Financial Statements, continued**  
**For the Fiscal Year Ended June 30, 2017**

**(1) Reporting Entity and Summary of Significant Accounting Policies, continued**

**D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position, continued**

**6. Property Taxes and Assessments, continued**

Property taxes receivable at year-end are related to property taxes collected by the County of Monterey and the County of San Benito, which have not been credited to the District's cash balance as of June 30. The property tax calendar is as follows:

Lien date	March 1
Levy date	July 1
Due dates	November 1 and March 1
Collection dates	December 10 and April 10

**7. Materials and Supplies Inventory**

Materials and supplies inventory consists primarily of water meters, and pipes and pipefittings for repair and maintenance to the District's water transmission and distribution system. Inventory is valued at cost using a first-in, first-out cost method. Inventory items are charged to expense at the time that individual items are withdrawn from inventory or consumed.

**8. Prepaid Expenses**

Certain payments to vendors reflect costs or deposits applicable to future accounting periods and are recorded as prepaid items in the basic financial statements.

**9. Capital Assets**

Capital assets acquired and/or constructed are capitalized at historical cost. District policy has set the capitalization threshold for reporting capital assets at \$1,000. Donated assets are recorded at estimated fair market value at the date of donation. Upon retirement or other disposition of capital assets, the cost and related accumulated depreciation are removed from the respective balances and any gains or losses are recognized. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets as follows:

- Water systems – 20 to 40 years
- Office buildings and improvements – 35 years
- Office furniture and fixtures – 3 to 5 years
- Vehicles – 5 years

**10. Deferred Outflows of Resources**

Deferred outflows of resources represent the consumption of resources applicable to future periods.

**11. Compensated Absences**

The District's policy is to permit employees to accumulate earned vacation. Upon termination of employment, employees are paid all unused vacation.

**For the Fiscal Year Ended June 30, 2017**

**(1) Reporting Entity and Summary of Significant Accounting Policies, continued**

**D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position, continued**

**12. Deferred Inflows of Resources**

Deferred inflows of resources represent the acquisition of resources applicable to future periods.

**13. Net Position**

The District follows the financial reporting requirements of the GASB and reports net position under the following classifications:

- *Net Investment in Capital Assets Component of Net Position* – This component of net position consists of capital assets, net of accumulated depreciation, and reduced by any debt outstanding against the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt, are included in this component of net position.
- *Restricted Component of Net Position* – This component of net position consists of assets that have restrictions placed upon their use by external constraints imposed either by creditors (debt covenants), grantors, contributors, or laws and regulations of other governments or constraints imposed by law through enabling legislation.
- *Unrestricted Component of Net Position* – This component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of the net investment in capital assets or restricted components of net position.

**(2) Cash and Cash Equivalents**

Cash and investments as of June 30, are classified in the accompanying financial statements as follows:

	<b>2017</b>
Cash and cash equivalents	\$ 942,686
Cash and cash equivalents - restricted	545,951
Total cash and investments	\$ 1,488,637

Cash and investments as of June 30, consist of the following:

	<b>2017</b>
Cash on hand	\$ 100
Deposits with financial institutions	706,443
Investments	782,094
Total	\$ 1,488,637

**Aromas Water District**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Year Ended June 30, 2017**

**(2) Cash and Investments, continued**

As of June 30, the District's authorized deposit had the following maturities:

	<b>2017</b>
Deposits in California Local Agency Investment Fund (LAIF)	194 days

***Investment in State Investment Pool***

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

The District's deposit and withdrawal restrictions and limitations are as follows:

- Same day transaction processing occurs for orders received before 10:00 a.m.
- Next day transactions processing occurs for orders received after 10:00 a.m.
- Maximum limit of 15 transactions (combination of deposits and withdrawals) per month.
- Minimum transaction amount requirement of \$5,000, in increments of \$1,000.
- Withdrawals of \$10,000,000 or more require 24 hours advance.
- Prior to funds transfer, an authorized person must call LAIF to do a verbal transaction.

***Investments Authorized by the California Government Code and the District's Investment Policy***

The table below identifies the investment types that are authorized by the District in accordance with the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk.

<b>Authorized Investment Type</b>	<b>Maximum Maturity</b>	<b>Maximum Percentage of Portfolio</b>	<b>Maximum Investment in One Issuer</b>
U.S. Treasury obligations	5 years	None	None
Federal agency and bank obligations	5 years	None	None
Certificates-of-deposit (negotiable or placed)	5 years	30%	10%
Commercial paper (prime)	270 days	10%	10%
Money market mutual funds	N/A	20%	None
State and local bonds, notes and warrants	N/A	None	None
California Local Agency Investment Fund (LAIF)	N/A	None	None

**Aromas Water District**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Year Ended June 30, 2017**

**(2) Cash and Investments, continued**

***Custodial Credit Risk***

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party.

The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF).

The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies.

As of June 30, 2017, the District's bank balances, up to \$250,000 is federally insured and the remaining balance is collateralized in accordance with the Code; however, the collateralized securities are not held in the District's name.

***Interest Rate Risk***

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District can manage its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio matures or comes close to maturity evenly over time as necessary to provide for cash flow requirements and liquidity needed for operations.

As of June 30, 2017, the District maintained no investments subject to market interest rate risk fluctuations.

***Credit Risk***

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investment in LAIF is not rated.

***Concentration of Credit Risk***

The District's investment policy contains no limitations on the amounts that can be invested in any one issuer as beyond that stipulated by the California Government Code. There were no investments in any one issuer (other than for U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total District's investments as of June 30, 2017.

***Orchard Acres Assessment District, 2008 Limited Obligation Improvement Bond, Series A***

In 2008, pursuant to the Assessment Bond Law and Resolution No. 2008-04, the District issued a limited obligation bond under a fiscal agent agreement between the District and Union Bank in the amount of \$498,000. The proceeds from the bond financed the connection of 11 parcels of land in an unincorporated area of the County of San Benito, known as Orchard Acres, to the District's municipal water supply system. The bond is a limited obligation to the District, and payable solely from the proceeds of unpaid assessments levied on the 11 parcels within Orchard Acres. Terms of the bond call for semi-annual interest payable on March 2<sup>nd</sup> and September 2<sup>nd</sup> of each year, and annual debt service payment of principal on September 2<sup>nd</sup> of each year. The interest on the bond escalates starting at a rate of 4.80% in 2013 to 6.10% at maturity in 2038. Annual maturity and interest on the bond are as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2018	\$ 10,000	25,344	35,344
2019	10,000	24,733	34,733

**(5) Long-Term Debt, continued**

*Assessment District No. 2013-1, Limited Obligation Improvement Bond, Series 2014*

In 2014, pursuant to the Assessment Bond Law and Resolution No. 2014-09, the District issued a limited obligation bond in the amount of \$2,723,613. The proceeds from the bond financed 47 water and fire service connections and 12 fire service only connections to particular residences on Oakridge Drive and Via del Sol. The bond is a limited obligation to the District, and payable solely from the proceeds of unpaid assessments levied on the Assessment District. Terms of the bond call for semi-annual interest payable on March 2<sup>nd</sup> and September 2<sup>nd</sup> of each year, and annual debt service payment of principal on September 2<sup>nd</sup> of each year. The interest on the bond is stated at 4.00% and matures in 2055. Annual maturity and interest on the bond are as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2018	\$ 31,000	105,539	136,539
2019	33,000	104,278	137,278

**(5) Long-Term Debt, continued**

***Community Facilities District No. 98-1, Special Tax Bond***

In 1998, pursuant to the Mello-Roos Community Facilities Act of 1982 and Resolution No. 98-22, the District issued a special tax bond in the principal amount not to exceed \$990,000. The proceeds from the bond financed the acquisition and construction of certain public improvements to meet the needs of existing and new development within Community Facilities District No. 98-1 (CFD District) of the Aromas Water District. The bond is payable from a special tax approved by the electors of the CFD District. Terms of the bond call for semi-annual interest payable on March 2<sup>nd</sup> and September 2<sup>nd</sup> of each year, and annual debt service payment of principal on September 2<sup>nd</sup> of each year. The bond interest is stated at 6.10% and matures on 2019. Annual maturity and interest on the bond are as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2018	\$ 40,000	3,360	43,360
2019	<u>40,000</u>	<u>1,120</u>	<u>84,480</u>
Total	80,000	<u>4,480</u>	<u>127,840</u>
Current	<u>(40,000)</u>		
Non-current	<u>\$ 40,000</u>		

***National City Note Payable***

In 2006, the District entered into a loan agreement with Santa Barbara Bank & Trust, N.A. and borrowed \$854,318. The proceeds of the loan financed the improvement to the District's water treatment and distribution system.

In 2011, the District refinanced its loan obtained in 2006, and borrowed additional funds to total \$1,457,578. The proceeds of the loan financed the improvement to the District's water treatment and distribution system extended to consist of the replacement of, and improvement to, the site of the Carpenteria well and improvements to the booster station.

In 2015, the District refinanced its loan obtained in 2011, with the Municipal Finance Corporation and borrowed \$1,323,721 on a tax-exempt basis and \$201,966 on a taxable basis. The proceeds of the additional funds were used to acquire and install a solar energy project at the Carpenteria well site. The interest rates on the tax-exempt note and the taxable note are stated at 3.00% and 2.75%, respectively, and mature in 2030 and 2021, respectively. The terms of the notes call for semi-annual debt service payment of principal and interest payable on May 1<sup>st</sup> and November 1<sup>st</sup> of each year. The notes are secured by a pledge of and lien on the net revenues of the District's water system.

**(8) Defined Benefit Pension Plans**

***Plan Description***

All qualified permanent and probationary employees are eligible to participate in the Public Agency Cost-Sharing Multiple-Employer Defined Pension Plan (Plan or PERF C) administered by the California Public Employees' Retirement System (CalPERS). The Plan consists of a miscellaneous risk pool and a safety risk pool, which are comprised of individual employer miscellaneous and safety plans, respectively. Benefit provisions under the Plan are established by State statute and the District's resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on CalPERS website or may be obtained from their executive office at 400 P Street, Sacramento, California 95814.

**Aromas Water District**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Year Ended June 30, 2017**

**(8) Defined Benefit Pension Plans, continued**

***Benefits Provided***

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: The Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

On September 12, 2012, the California Governor signed the California Public Employees' Pension Reform Act of 2013 (PEPRA) into law. PEPRA took effect January 1, 2013. The new legislation closed the District's CalPERS 2.0% at 55 Risk Pool Retirement Plan to new employee entrants, not previously employed by an agency under CalPERS, effective December 31, 2012. All employees hired after January 1, 2013, are eligible for the District's CalPERS 2.0% at 62 Retirement Plan under PEPRA.

The District participates in the Plan's miscellaneous risk pool. The provisions and benefits for the Plan's miscellaneous pool in effect as June 30, 2017, are summarized as follows:

	<u>New Classic</u>	<u>PEPRA</u>
	Prior to	On or after
	December 31,	January 1,
	<u>2012</u>	<u>2013</u>
Hire date		
Benefit formula	2.0% @ 55	2.0% @ 62
Benefit vesting schedule	5 years of service	
Benefit payments	monthly for life	
Retirement age	50 - 55	52 - 67
Monthly benefits, as a % of eligible compensation	2.00%	2.00%
Required employee contribution rates	6.89%	6.25%
Required employer contribution rates	8.88%	6.25%

***Contributions***

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on July 1, following notice of a change in rate. Funding contribution for the Plan is determined annually on an actuarial basis as of June 30, by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. For the year ended June 30, 2017, the District's employer contributions reduced its net pension liability by \$51,643.

**Notes to the Financial Statements, continued**  
**For the Fiscal Year Ended June 30, 2017**

**(8) Defined Benefit Pension Plans, continued**

*Net Pension Liability*

As of the fiscal year ended June 30, 2017, the District reported net pension liabilities for its proportionate share of the net pension liability of the Plan as follows:

	<b>2017</b>
Proportionate share of net pension liability \$	501,054

The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability for the miscellaneous risk pool. As of June 30, 2017, the net pension liability of the Plan is measured as of June 30, 2016 (the measurement date). The total pension liability for the Plan's miscellaneous risk pool used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015 (the valuation date), rolled forward to June 30, 2016, using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The District's changes in proportionate share of the net pension liability for the Plan's miscellaneous risk pool as of the measurement date June 30, 2016, was as follows:

	<b>Proportionate Share</b>
Proportion – June 30, 2015	0.00635 %
Proportion – June 30, 2016	0.00579
Decrease in proportionate share	0.00056 %

**For the Fiscal Year Ended June 30, 2017**

**(8) Defined Benefit Pension Plans, continued**

*Deferred Pension Outflows(Inflows) of Resources*

For the year ended June 30, 2017, the District recognized pension expense of \$8,796. As of the fiscal year ended June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

<u>Description</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Pension contributions subsequent to measurement date	\$ 61,410	-
Differences between actual and expected experience	1,423	-
Changes in assumptions	-	(17,463)
Net differences between projected and actual earnings on plan investments	90,890	-
Adjustment due to changes in proportions and difference between actual and proportionate share of contributions	<u>21,048</u>	<u>-</u>
Total	<u>\$ 174,771</u>	<u>(17,463)</u>

For the year ended June 30, 2017, the District's deferred outflows of resources related to contributions subsequent to the measurement date totaled \$61,410; and other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized as pension expense as follows:

<u>Fiscal Year Ending June 30,</u>	<u>Deferred Net Outflows of Resources</u>
2018	\$ 13,276
2019	17,189
2020	41,892
2021	23,541

**Aromas Water District**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Year Ended June 30, 2017**

**(8) Defined Benefit Pension Plans, continued**

***Actuarial Assumptions***

The total pension liability in the June 30, 2015, actuarial valuation report was determined using the following actuarial assumptions:

Valuation date	June 30, 2015
Measurement date	June 30, 2016
Actuarial cost method	Entry Age Normal in accordance with the requirements of GASB Statement No. 68
Actuarial assumption	
Discount rate	7.65%
Inflation	2.75%
Salary increase	Varies by Entry Age and Service
Mortality table*	Derived using CalPERS membership data
Period upon which actuarial experience survey assumptions were based	1997 - 2011
Post-retirement benefit increase	Contract COLA up to 2.75% until PPPA floor on purchasing power applies; 2.75% thereafter.

\* The mortality table used was developed based on CalPERS specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the April 2014 experience study report (based on CalPERS demographic data from 1997 to 2011) available online.

***Discount Rate***

The discount rate used to measure the total pension liability was 7.65% for the Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for the Plan, the amortization and smoothing periods recently adopted by CalPERS were utilized. The crossover test was performed for a miscellaneous agent plan and a safety agent plan, selected as being more at risk of failing the crossover test and resulting in a discount rate that would be different from the long-term expected rate of return on pension investments.

Based on the testing of the plans, the tests revealed the assets would not run out. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Plan.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

**Aromas Water District**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Year Ended June 30, 2017**

**(8) Defined Benefit Pension Plans, continued**

*Discount Rate, continued*

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

As of June 30, 2017, the target allocation and the long-term expected real rate of return by asset class were as follow:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Real Return Years 1-10</u>	<u>Real Return Year 11+</u>
Global Equity	51.0%	5.25%	5.71%
Global Fixed Income	20.0	0.99	2.43
Inflation Sensitive	6.0	0.45	3.36
Private Equity	10.0	6.83	6.95
Real Asset	10.0	4.50	5.13
Infrastructure and Forestland	2.0	4.50	5.09
Liquidity	1.0	(0.55)	(1.05)
Total	<u>100.0%</u>		

*Sensitivity of the Proportionate Share of Net Pension Liability to Changes in the Discount Rate*

The following table presents the District's proportionate share of the net position liability for the Plan, calculated using the discount rate, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate.

As of June 30, 2017, the District's net pension liability at the current discount rate, using a discount rate that is one-percentage point lower and using a discount rate that is one-percentage point higher, are as follows:

	<u>Discount Rate - 1%</u>	<u>Current Discount Rate</u>	<u>Discount Rate + 1%</u>
	<u>6.65%</u>	<u>7.65%</u>	<u>8.65%</u>
District's Net Pension Liability	\$ <u>780,629</u>	<u>501,054</u>	<u>269,999</u>

*Pension Plan Fiduciary Net Position*

Detailed information about the pension plan's fiduciary net position is available in separately issued CalPERS financial reports. See pages 34 and 35 for the Required Supplementary Schedules.

**For the Fiscal Year Ended June 30, 2017**

**(9) Risk Management**

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is insured for a variety of potential exposures. The following is a summary of the insurance policies carried by the District as of June 30, 2017:

- Public employee dishonesty, forgery or alteration, computer fraud, faithful performance of duty, pension plans including ERISA: \$200,000 limit of coverage with a \$100,000 deductible.
- Building, personal property, fixed equipment, additional coverage and catastrophic coverage: \$1,000 deductible.
- Mobile equipment: \$1,000 deductible.
- Automobile: \$1,000 deductible.
- Boiler and machinery: Various.
- Flood: Various.
- Earthquake: 5% per unit of insurance, subject to \$75,000 minimum.

**(10) Governmental Accounting Standards Board Statements Issued, Not Yet Effective**

The Governmental Accounting Standards Board (GASB) has issued several pronouncements prior to the issue date, that has effective dates that may impact future financial presentations.

***Governmental Accounting Standards Board Statement No. 75***

In June 2015, the GASB issued Statement No. 75 – *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities.

This Statement replaces the requirements of Statement No. 45 – *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57 – *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, for OPEB. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2017. The impact of the implementation of this Statement to the District’s financial statements has not been assessed at this time.

***Governmental Accounting Standards Board Statement No. 81***

In March 2016, the GASB issued Statement No. 81 – *Irrevocable Split-Interest Agreements*. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement.

**Aromas Water District**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Year Ended June 30, 2017**

**(10) Governmental Accounting Standards Board Statements Issued, Not Yet Effective, continued**

***Governmental Accounting Standards Board Statement No. 81, continued***

This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period.

The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016, and should be applied retroactively.

***Governmental Accounting Standards Board Statement No. 83***

In November 2016, the GASB issued Statement No. 83 – *Certain Asset Retirement Obligations*. This Statement (1) addresses accounting and financial reporting for certain asset retirement obligations (AROs), (2) establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs, (3) requires that recognition occur when the liability is both incurred and reasonably estimable, (4) requires the measurement of an ARO to be based on the best estimate of the current value of outlays expected to be incurred, (5) requires the current value of a government's AROs to be adjusted for the effects of general inflation or deflation at least annually, and (6) requires disclosure of information about the nature of a government's AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged.

***Governmental Accounting Standards Board Statement No. 84***

In January 2017, the GASB issued Statement No. 84 – *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

This Statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged.

**Aromas Water District**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Year Ended June 30, 2017**

**(10) Governmental Accounting Standards Board Statements Issued, Not Yet Effective, continued**

***Governmental Accounting Standards Board Statement No. 85***

In March 2017, the GASB issued Statement No. 85 – *Omnibus 2017*. The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]).

The requirements of this Statement are effective for reporting periods beginning after June 15, 2017. Earlier application is encouraged.

***Governmental Accounting Standards Board Statement No. 86***

In May 2017, the GASB issued Statement No. 86 – *Certain Debt Extinguishment Issues*. The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2017. Earlier application is encouraged.

***Governmental Accounting Standards Board Statement No. 87***

In June 2017, the GASB issued Statement No. 87 – *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

**Aromas Water District**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Year Ended June 30, 2017**

**(11) Commitments and Contingencies**

*Grant Awards*

Grant funds received by the District are subject to audit by the grantor agencies. Such audit could lead to requests for reimbursements to the grantor agencies for expenditures disallowed under terms of the grant. Management of the District believes that such disallowances, if any, would not be significant.

*Litigation*

In the ordinary course of operations, the District is subject to claims and litigation from outside parties. After consultation with legal counsel, the District believes the ultimate outcome of such matters, if any, will not materially affect its financial condition.

**(12) Subsequent Events**

Events occurring after June 30, 2017, have been evaluated for possible adjustment to the financial statements or disclosure as of February 27, 2018, which is the date the financial statements were available to be issued.

## **Independent Auditor's Report on Internal Controls Over Financial Reporting And on Compliance and Other Matters Based on the Audit of Financial Statements Performed in Accordance with *Government Auditing Standards***

Board of Directors  
Aromas Water District  
Aromas, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Aromas Water District (District), as of and for the year June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated February 27, 2018.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Independent Auditor's Report on Internal Controls Over Financial Reporting  
And on Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance with *Government Auditing Standards*, (continued)**

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
